Re: Acceptance of Notice of Intention to Commence Small Mining Operations, United States Gypsum Company (USG), San Rafael Quarry, S/015/075, (UTU-76643), Emery County, Utah

Dear Mr. Nyffeler:

On May 3, 1999, the Division received USG's correspondence concerning the San Rafael Quarry small mining notice, located in the NE1/4 of the SE1/4 of Section 22, Emery County, Utah. The letter satisfies the Division's April 16, 1999 deficiency concerns. **UGS's notice is now considered complete and no additional information is required from the operator by the Division at this time.**

The Division is forwarding a copy of this letter directly to USG in the interest of time. This approval does not alleviate the operator from the responsibility of receiving approval from other agencies involved before beginning this operation.

Please provide us with a copy of your final completeness/approval letter to the operator. In addition, if you receive additional information or amendments for this operation, please notify us so we can update our files. Please reference our designated file number S/015/075 when forwarding additional information on this project to us.

Sincerely,

Doug Jensen
Reclamation Specialist
